## About the Book

**J**ohn Crown believed that his Special Forces training and missions existed now only as distant memories. But when his pregnant wife is killed in an “accident” at the hands of cold-blooded, professional car thieves and racketeers, something else dies too: John’s new life as a husband, soon-to-be father, and successful software engineer in Atlanta, Georgia. To track down his wife’s unknown murderers, John sets a series of ingenious—and deadly—traps for unwitting, criminal prey. John fast becomes the underworld’s worst nightmare: a military-trained vigilante who obeys no law except the one that will bring him peace—the law of revenge. What he doesn’t know is that some of his prey welcome the challenge, anxious and willing to play his deadly game—to win.

The R-complex is a fast-paced action adventure novel packed with organized crime, drugs cartels, terrorists groups, revenge killings, brutal murders, improvised demolitions, a man who proves to be an ultimate killing machine, a female assassin, and a Special Forces A Team infiltrating Colombia, South America, to bring two villains to justice—and much more.

*Definitely not for the squeamish or faint of heart reader.*

## ABOUT THE AUTHOR

Thomas (Tom) Hoyt Davis III, holds a bachelor of arts degree from the University of Georgia and a master’s degree from the University of Southern California. Tom entered the Army as a private and retired as a full colonel. He spent 23 of this 30+ years serving with Special Forces (Green Berets) on four continents and in ten foreign countries. He has worn a Green Beret at every rank from 2LT to Colonel and commanded at every level from A Teams to a Joint Special Operations Task Force. The various A Teams he commanded specialized in Mountaineering, Underwater Operations, High Altitude Low Opening (HALO) parachute techniques, and Small Atomic Demolitions Munitions (SADM). In addition to the Army’s Command and General Staff College and Army War College, he has attended Airborne, Ranger, Special Forces, Underwater Operations (UWO), Danish Combat Swimmer, Special Forces Surface Swimmer Infiltration Techniques, High Altitude Low Opening (HALO) parachute school, Small Atomic Demolitions Munitions (SADM) and more.
